Subject: FW: Project Agreement Draft from Scherer - Phenylmercapturic acid

Val,

Since Dr. Scherer sent this directly to Hans, I would suggest you sending him your corrections and asking him to make the changes, print and sign two copies, send to Hans for his approval and then to Rick for signature. If you have a better idea, just let me know.

(would you please just make sure I have a copy?)

Thanks,
-L

Subject: FW: Project Agreement Draft from Scherer - Phenylmercapturic acid

L-
Hans has reviewed from a scientific/monetary perspective and is ok with the agreement. I would suggest the following minor revisions to Dr. Scherer's agreement (it's a PDF otherwise I'd send you a mark-up):

Section 1 (Services) - Last sentence - replace each occurance of "each" with "the"
Section 3 (Fixed Fee) - First Sentence - replace "each such Project" with "the Project"
Section 3 (Fixed Fee) - Second Sentence - replace "any Project" with "the Project"

Please let me know your comments and how you'd like to proceed.

Thanks,
Valerie

Dear Valerie,
could you check if the project agreement proposal is okay? If yes we will ask Dr. Scherer to send us a signed copy.
Best regards
Hans

Dear Hans,

attached please find the **Method Validation Sheet** for phenylmercapturic acid (PhMA) and the **Projects Agremment (4)** for the analysis of PhMA in the urine samples of MDS PS Porject 26586. Please advise me when we can start with this project.

Best regards

Gerhard Scherer
